

Simmons School of Social Work Standards for Professional Practice

Introduction

These standards are presented in a social work framework that values diversity of perspective and experience, understands there is diversity between and within cultures, and respects difference. Achieving professionalism in social work requires a commitment to and demonstration of the values of the social work profession.

The Simmons School of Social Work (SSW) is committed to preparing its graduates to be highly competent and ethical social work practitioners. Faculty make a commitment to provide students with a curriculum that supports their educational and professional development and that assists them in adherence to these standards. Additionally, the SSW is mandated by the Council on Social Work Education (CSWE) to promote and evaluate professional development for students in Social Work programs (BSW, MSW). Likewise, the SSW is responsible to the community at large for graduating knowledgeable, ethical, and skilled social work professionals whose practice reflects the competencies, skills, and values of the social work profession.

This document outlines eight professional performance standards: Communication, Electronic Communication, Self-Awareness, Openness and Willingness to Learn, Physical and Cognitive Ability, Presentation of Self, Emotional Stability and Stress Management, and Professional Values and Ethics. Each professional standard is accompanied by descriptions of behavioral expectations. Students must satisfy the professional standards to enroll in, progress through, and graduate from the SSW. Specifically, students are expected to act in a manner that is consistent with the values, ethics, and conduct required for professional social work practice in the classroom, in field placements, and in the broader school community. Becoming a professional is a gradual process; as a result, the SSW faculty, field instructors and administrators will continually assess students in accordance with these standards, which constitute the criteria for professional performance. In addition to the standards outlined in this document, SSW students are expected to abide by the *NASW Code of Ethics (NASW, 2017)*, the Simmons College Honor Code, and the policies outlined in the SSW Student Handbook and in the Simmons College Handbook. Procedures for addressing a violation of the Standards for Professional Practice or any of the ethics, codes, or policies identified above are outlined in the SSW Student Handbook. The ultimate goal of the SSW Standards for Professional Practice is to help you have a successful experience at the SSW and to be prepared for post-graduate practice. This document does not include the complete NASW Code of Ethics or the CSWE Educational Policies, however it highlights particular ethics and competencies to serve as a framework for professional and ethical behaviors to abide by while a student at the SSW. As an SSW student, you will be informed of the Standards for Professional Practice at the time of application to the SSW and at new student orientation. The standards are on the SSW web site and also in the SSW student handbook.

To participate in a degree program, you are expected to satisfy program requirements, including these professional standards, with or without accommodations. If you seek reasonable accommodations for disabilities, you must contact the Simmons Office of Disability Services.

This office will determine your eligibility for accommodations and recommend accommodations and/or services.
