

Welcome students interested in Information Science & Technology!

The faculty, staff, and other students welcome you to our IS&T program of study.

All Simmons College SLIS students complete required introductory courses (LIS 407, 415, and 488) in the first four classes. These classes prepare you to complete other classes more successfully and to ensure all students share necessary background knowledge. As an IS&T student, you'll pursue the core courses and then your electives. We recommend IS&T students take LIS 488 early, as it is a prerequisite for many other IS&T courses

Below you will find recommendations for your first and second semesters at Simmons

Three courses per semester:

First semester	Second semester
LIS 407 or LIS 415 LIS 488 LIS 484	LIS 407 or LIS 415 LIS 485 (Elective)

Two courses per semester:

First semester	Second semester
LIS 407 or LIS 415 LIS 488	LIS 407 or LIS 415 LIS 485 or LIS 484

One course per semester:

First semester	Second semester
LIS 488	LIS 407 or LIS 415

On behalf of the IS&T faculty, we welcome you to the program. Feel free to ask any IS&T professor about courses and advising.

Sincerely,

Naresh Agarwal, Gerald Benoît, Chaoquin Ni, Amber Stubbs, Rong Tang, Bruce Tis, and Nanette Veilleux
