How do I create a work order?

Visit fixit.simmons.edu and login with your Simmons network username and password. Follow instructions on the page to submit your request. For additional guidance on logging in for the first time and submitting work requests, download Instructions document from facilities.simmons.edu.

How do I check on the status of a request?

While logged into the SchoolDude system, click on the “My Requests” tab. The table will show all work orders you have entered into the system. Your work order data can be organized in a number of ways depending on your preferences:

- Search for the Work Order ID number (WOID) in the “Search” section to pull up a specific work request
- Sort the table by clicking on the gray box  to the left of the criteria (e.g. Status, WOID, Location, Request Date, etc.) to sort by that selected criteria.
- Filter work requests by clicking the number under “Request Totals” and beside a particular status (e.g. Work in Progress) to see only those requests.

Red comments shown in the “Action Taken” section are notes from Facilities staff.

Completed work orders will show a time/date stamp in the last column of the table.
