

Simmons University Employee Engagement Survey 2019

All - All

Nov 05, 2019 - Nov 27, 2019

* - Scores are not available due to data suppression.

Not shown if n < 4 for Mean, Top Box, Verbatim Responses, and Sentiment, n < 10 for Frequency, or data is unavailable.

Mean Percentile Rank is being calculated against other workgroup scores in the Gallup Overall database.

Meaningful change is represented by a green or red arrow if the score changes by 0.2 or more between survey periods.

Percentile Rank in Gallup Overall Database ■ < 25th Percentile ■ 25-49th Percentile ■ 50-74th Percentile ■ 75-89th Percentile ■ >= 90th Percentile

Percent Engaged available when n ≥ 30. All categories available when n ≥ 100.

Sentiment Distribution is not available when n < 50

Percent Engaged available when n ≥ 30. No topics available when n < 250. 5 topics available when n ≥ 250. 10 topics available when n ≥ 1000.

All text analytics are machine generated. Because we use machine learning to generate sentiments, results may not be 100% accurate.

Q12 Mean

The Gallup Q12 score represents the average, combined score of the 12 elements that measure employee engagement. Each element has consistently been linked to better business outcomes.

In the past four months, has Simmons University leadership communicated with employees about diversity and inclusion in the workplace?

Respondents	% Yes	Frequency Distribution
655	90%	No: 10% Yes: 90%

Please imagine a ladder with steps numbered from zero at the bottom to ten at the top. The top of the ladder represents the best possible life for you and the bottom of the ladder represents the worst possible life for you. On which step of the ladder would you say you personally feel you stand at this time?

On which step do you think you will stand about five years from now?

My manager provides meaningful feedback to me.

Total N	Current Mean	Frequency Distribution 1 2 3 4 5	Mean Percentile Rank - Gallup Overall	Company Overall Current Mean	Mean Percentile Rank - Industry - Education - Postsecondary/ Higher Education

Engagement Hierarchy

Employees need to be challenged to learn something new and find better ways to do their jobs. They need to feel a sense of movement and progress as they mature in their roles.

Growth - How can I grow?

Employees need to feel like they belong and are a good fit with their team. They need to know they are part of something bigger than themselves. As a manager, encourage opportunities for teamwork and a sense of belonging.

Teamwork - Do I belong here?

Employees want to know about their individual contributions and their worth to the organization. Manager support is especially important during this stage because managers typically define and reinforce value.

Individual - What do I give?

Employees need to have a clear understanding of what excellence in their role looks like so they can be successful. Groups with high scores on the first element are more productive, cost-effective, creative and adaptive.

Basic Needs - What do I get?

GLOSSARY

The glossary provides high-level definitions of terms within the engagement report. Because of the dynamic nature of this site, not all terms will be applicable to or displayed on your report. Please use the terms that are relevant to your team when discussing and interpreting the data.

ENGAGEMENT DEFINED

EMPLOYEE ENGAGEMENT: Employee engagement refers to how committed an employee is to their organization, their role, their manager and their co-workers. Engagement drives performance. Gallup's research shows that more highly engaged employees give more discretionary effort at work and have higher productivity, profitability and customer service, as well as reduced turnover and safety incidents.

THE SURVEY ITEMS/QUESTIONS

OVERALL SATISFACTION: Overall Satisfaction is a measure of how content your team is with the overall company as a place to work. Overall Satisfaction is not included in the Overall Workgroup Engagement (GrandMean) score. Being a satisfied employee does not equate with being engaged, though the two are highly related.

Q01-Q12: These items are Gallup's proprietary workgroup engagement questions (commonly referred to as the Q¹²®). These items were selected for their strong connection to performance outcomes and the ability to take action at the workgroup level.

INDICES: In addition to the Q¹²® items, Gallup has created a number of empirically-derived sets of indices, which are comprised of 3-4 questions each. Individual scores of each index item are provided, along with a combined index score, which measures the strength of the core index construct. These indices help companies strategically pinpoint and improve specific focus areas relevant to their current situation.

CUSTOM ITEMS: These items are unique to your company and can vary across companies and surveys. While these "additional" questions link to the Gallup Engagement hierarchy, they are not always within the power of the workgroup to influence or change. These questions can provide additional insights into employees' perceptions, the situational workplace environment or company-specific initiatives.

EMPLOYEE ENGAGEMENT RESULTS

GRANDMEAN: The GrandMean measures overall Workgroup Engagement, which is an average of the 12 Workgroup Engagement items (Q01-Q12). The higher your score (with a maximum possible score of 5), the more engaged your fellow employees are.

ENGAGEMENT INDEX: The Engagement Index (EI) is a macro-level indicator of an organisation's health that allows leaders to track the engagement levels of employees. This analysis identifies the percentage of participants who are engaged, not engaged and actively disengaged based on their responses to the Q¹²® survey items. You must have 100 employees participate to receive the full spectrum of responses for the EI. If you have 30<100 employees, the report will include the percentage of engaged employees only.

ENGAGEMENT HIERARCHY: Every employee has a distinct set of needs that follows a hierarchy, with basic needs at the foundation and growth at the top. Employees feel more or less engaged depending on how well they believe their needs are being met in the workplace.

UNDERSTANDING THE SCORES

THE SURVEY SCALE: The engagement survey utilises a 5-point scale with 1=Strongly Disagree and 5=Strongly Agree. For each question, employees have the option to also select

“Don’t know” or “Does not apply”.

TOTAL N: The total number of employees who responded to the survey.

MEAN SCORES: The average score using the 5-point survey scale, with 5.00 being the highest score and 1.00 being the lowest.

TOP BOX/%5: The percentage of employees who responded “5 – Strongly Agree” to the survey item.

DISTRIBUTION OF RESPONSES: The percentage of employees who responded “1”, “2”, “3”, “4” or “5” to an item. If 10 or more employees respond to the survey, the report could display a full distribution of responses. Otherwise, only the percentage of employees who responded with a “5” (TopBox) and item means will display.

SUPPRESSED DATA: Confidentiality of responses is extremely important to Gallup. If too few employees respond to a survey item, the data will be suppressed (not published) and an asterisk (“*”) will appear in its place.

COMPARISONS

EXTERNAL BENCHMARKING: (GALLUP DATABASE COMPARISON): Used as a benchmark to determine how your team’s results compare to other workgroups within the Gallup Database of clients.

PERCENTILE RANKING: The 25th percentile indicates 75% of workgroups fell above this score; the 50th percentile indicates 50% of workgroups fell above and below this score; the 75th percentile indicates only 25% of workgroups fell above this score. The higher your percentile, the stronger the item is in relation to the database. Used as a benchmark to determine how your team’s results compare to internal and external workgroups.
