# Blue Cross Blue Shield of Massachusetts Formulary: Health Savings Account (HSA) Preventive Medication List

Last Updated: January 1, 2022

The following list includes preventive medications that are covered by HSA-qualified “Saver” plans<sup>1</sup> with the Blue Cross Blue Shield of Massachusetts Formulary. You may not be required to pay the deductible<sup>2</sup> for some of these medications, which are commonly prescribed to help you stay healthy and prevent complications or secondary conditions.

This isn’t a complete list of covered medications, and inclusion on this list doesn’t guarantee coverage.<sup>3</sup> You must have a valid prescription from a licensed health provider to receive coverage for these medications. Some medications may also be subject to pharmacy management programs, such as Step Therapy, Prior Authorization, or Quality Care Dosing, or have other coverage requirements.

**NOTE:** Some medications on this list may be considered non-covered, including new medications under review by Blue Cross. Your doctor may request an exception for a non-covered medication when medically necessary.<sup>4</sup>

## Learn More About Your Coverage

For more information about these medications, look them up using the **Medication Lookup** tool at [bluecrossma.org/medication](http://bluecrossma.org/medication).

1. Blue Cross Blue Shield of Massachusetts plans that are HSA-qualified include the term “Saver” in the plan name. For example: Blue Care Elect Saver or HMO Blue New England Saver \$2,000.
2. Some employers may also exempt the copayment or co-insurance. Check your benefit materials for details.
3. Not all medications listed are covered by all prescription plans. Check your benefit materials for details.
4. If approved, you’d pay the highest-tier cost.
