

Downloading MySQL Workbench

You **do not** need to use the CS VM. You should be able to establish a connection without using the VM.

Step 1) Go to <https://dev.mysql.com/downloads/workbench>

Step 2) Download the 64 bit version. Use the second download button on this page.

NOTE: Be sure to download the version for your specific OS. You can change this in the dropdown menu.

We suggest that you use the MD5 checksums and GnuPG signatures to verify the integrity of the packages you download.

Step 3) You also do not need to create an Oracle account. Instead click on the link that says 'No thanks, just start my download'.

MySQL Community Downloads

Login Now or Sign Up for a free account.

An Oracle Web Account provides you with the following advantages:

- Fast access to MySQL software downloads
- Download technical White Papers and Presentations
- Post messages in the MySQL Discussion Forums
- Report and track bugs in the MySQL bug system

The screenshot shows the MySQL Community Downloads page. At the top, there are two buttons: 'Login » using my Oracle Web account' and 'Sign Up » for an Oracle Web account'. Below these buttons, there is a paragraph of text explaining the benefits of an Oracle Web account. A red arrow points from the text 'Otherwise, you can sign up for a free account by clicking the Sign Up link and following the instructions.' to a link that says 'No thanks, just start my download.' which is circled in red. At the bottom of the page, there is an Oracle logo and copyright information, and a footer with links to Legal Policies, Your Privacy Rights, Terms of Use, Trademark Policy, Contributor Agreement, and Cookie Preferences.

Step 4) In the download client make sure to keep all the pre-selected settings as follows and install:

NOTE: You may have to download Visual C++ 2019. Which can be found here:

<https://support.microsoft.com/en-us/help/2977003/the-latest-supported-visual-c-downloads>. Select the x64 bit version.
